

Focus on Accountability: The Power of Dashboards

Sponsored by Larson Allen, Initiative Foundation, Central MN Community Foundation & Bremer, this session, presented by Nancy Lee, Manager/Consultant with Larsen Allen, will discuss how everyone wants accountability but that often means more detail to keep track of. A dashboard of essential organizational indicators can help. It can assist the board in monitoring the organization's progress against strategic & operational goals. When done correctly, it focuses the board rather than distracts.
