

Preadmission screening & resource coordination *for health care providers*

A qualified health care professional must complete a preadmission screening (PAS) prior to admission to any Medicaid-certified nursing facility.

This presentation is for professionals who want to learn more about how and when to submit a PAS to the Senior Linkage Line for nursing facility admission.

The Senior LinkAge Line can also provide resource coordination to help older adults return to a community setting after a nursing home stay or help people living at home who are at risk of losing their independence.

CEU/Certificate of Attendance — Free social work CEUs, provided by the Minnesota Board on Aging are available upon request.

REGISTRATION

The Senior LinkAge Line is a free, statewide service of the Minnesota Board on Aging in partnership with Minnesota's area agencies on aging. The Senior LinkAge Line helps older Minnesotans and caregivers find answers and connect to the services and support they need.
